Message From Chairman

Since its foundation in 1980, KUKDONG has been dedicated to providing the best logistics service to help grow our clients' business for over 3 decades; now, as a logistics company specializing in export and import, KUKDONG has established a solid reputation in the industry and entered the Far East market to grow even further as a third-party logistics company.

Growing our global business network through marine equipment and logistics business, KUKDONG has extended its business to yachts and maritime investment and management.

With its nationwide network of major ports and logistics points in Korea, KUKDONG manages export/ import of more than 20,000TEU every month. Through its large scale infrastructure, such as CY and CFS, it oversees multi-transportation systems that connect land with railway transportation.

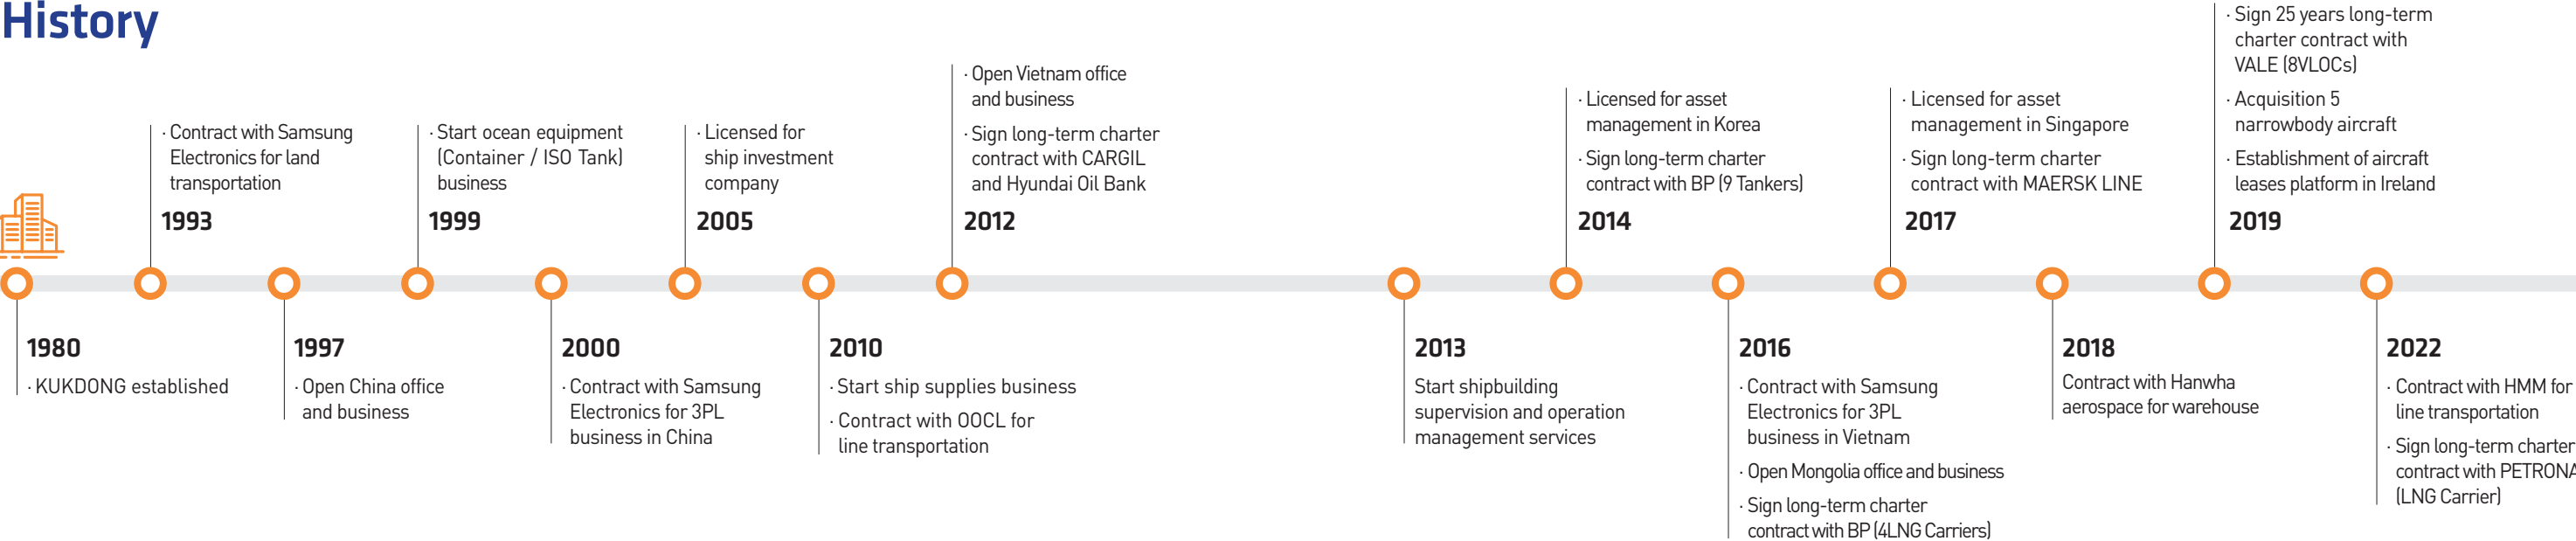

KUKDONG is the leading company that runs parallel with major logistics companies over the world and exceeds the expectations of global clients. We look to extend the infrastructure for advanced logistics and grow the best experts in the field through high valued training programs. KUKDONG guarantees world class service in global logistics services to our clients.
